

Name **Krueng Pan Din Pao Dan Kwian
(Dan Kwian Pottery)**
Country **Thailand**

Date of registration:
01/06/2018

Source: DIP Thailand

Main characteristics/features

Dan Kwianpottery (Krueng Pan Din Pao Dan Kwian) is an unglazed type of pottery that is fired at a high temperature. When finished, the pottery has a natural soil colour. It is glossy, strong and gives a resonant sound when knocked. It is suitable for holding water and other kinds of liquid.

Geographical area

Dan Kwianpottery is made in NakhonRatchasima province.

Production/processing

Link between product and territory

The soil in the Chok Chai district of NakhonRatchasima province is sand based resulting from the breakdown of basalt. It also contains high levels of iron and other minerals, which make the pottery resistant to high temperatures once they are fired.
